

VERSATILE

FAB & MACHINE LTD.

Versatile Fab & Machine Ltd is based in the beautiful Okanagan region of British Columbia, Canada. This progressive company has a diverse, 25 year history in all aspects of steel fabrication, having worked with many different local, national and international companies during that time.

Our employees are all certified steel fabricators and/or CWB certified welders. This level of qualification and skill ensures we only supply top quality products in all fields of steel fabrication, and deliver on time.

Versatile Fab is also happy to work with you through the design stages of your project. Our vast experience, from initial concept to final installation, will not only provide you with the best overall product, but a cost effective one as well. Lasting, good relationships with customers, designers and engineering companies are testimonials to our quality products and our commitment to excellence.

SERVICES

We can assist you with product cost estimation, and our insight can be invaluable in a successful project design. Our skilled staff have the expertise and qualifications to handle all tasks large or small while prioritizing attention to detail, efficiency and commitment to total customer satisfaction.

For dedicated, professional services or to discuss any of your steel fabricating needs, contact Versatile Fab and Machine Ltd. From cut-off saws to material handling systems, from basic structural steel to motorized spiral staircases for observatory viewing platforms, we provide guaranteed, quality products, delivered on budget and on time.

TESTIMONIALS

What they're saying...
